

Blue Crew Sponsorship Form

Our team works hard fundraising money to build our robot and go to events, but we wouldn't make it anywhere if it weren't for our generous sponsors. By sponsoring us, you will help our team create better more effective robots, as well as get an advertisement for your company. You could help our students get scholarships for college, and maybe one day they will apply for a job at your company. You could help our team go farther, and achieve more. Thank you for your support!
